Organize cycles of work into sprints

Sprints are short, time-boxed periods when a team collaborates to complete a set amount of customer value. Use sprints to drive incremental delivery, allow your team to ship high-quality work and deliver value faster.

[Learn more about sprints](#)

Understand your team's velocity

Improve predictability on planning and delivery with out-of-the-box reports, including the sprint report and velocity chart. Empower your team to understand their capacity and iterate on their processes.
